

Our presence in the world*

NORTH AMERICA

- 1 Hawaii**
 - Energy efficiency
 - Rooftop PV
 - Microgrids

* non-exhaustive

SOUTH AMERICA

- 2 Galapagos Islands (Ecuador)**
 - PV/jatropha palm oil hybrid system
- 3 Puerto Rico**
 - Combined cycle power plant

EUROPE

- 4 Ushant Island (France)**
 - LED-based public lighting system
- 5 Corsica (France)**
 - Hybrid plant
- 6 Azores (Portugal)**
 - Design of high penetration wind/PV/battery/diesel system
- 7 Yeu Island (France)**
 - Smart collective energy consumption (B2C)
- 8 Sardinia (Italy)**
 - Microgrid (CSP/CPV/thermal storage)

SOUTH ASIA

- 11 Maldives**
 - Microgrid (solar, storage, diesel)
- 12 Singapore**
 - Semakau island microgrid

PACIFIC ISLANDS

- 1,130 GWh of electricity distributed in New Caledonia, French Polynesia, Vanuatu, Wallis and Futuna**
- 100% of wind energy produced in New Caledonia
 - 2nd largest installer of PV solutions in French Polynesia
 - 145,000 clients served
- 13 French Polynesia**
 - Makatea - Operation of a hybrid plant for a 75% renewable island
 - Tahiti - Hydroelectric generation, public lighting
 - 14 New Caledonia**
 - Energy production & management
 - Green mobility
 - Waste & biomass to energy
 - Smart & connected communities
 - Operation, maintenance and facility management
 - Airport services

INDIAN OCEAN

- 9 Mauritius**
 - Facility management
- 10 La Réunion**
 - Rooftop PV and carpports
 - HVAC, electrical and mechanical services

AUSTRALIA

- 15 South Australia**
 - Microgrid (solar, wind, storage)
- 16 Flinders Island**
 - Microgrid (solar, storage, diesel)
